5. **Guest Speaker:** Vice Chancellor Michael Levine  
   a. A luncheon is planned for the 50th Anniversary of the ERRC  
   b. The new “parking system” will gradually go to electronic permits but not in the beginning of the 2019-2020 year. Changes will include the 100/200/300 buildings where you take a ticket and show your permit on the way out.  
   c. Levine will talk to Administrative Vice Chancellor Michael Beck to try to minimize the confusion about new plans for parking and try to get a picture of the precise plan to share with EA board.  
   d. Entrikin asked Levine about the “health of the faculty” going forward. Levine feels our faculty is very strong and points to the fact that they are being heavily recruited elsewhere but most are retained. UCLA will also be hiring ~ 80 academic faculty this year with competitive salaries. However, Social Sciences is the division that has been hit with most external offers.  
   e. Weiss commented on the ratio of tenure track vs non-tenure track faculty [heavy in non-tenure track] which is due in part to salary issues. State cannot increase tuition to match salary needs and just increasing number of students won’t help unless they are out of state students. On solution mentioned was shortening the time to degrees so new students can come into the system.  
   f. Levin raised the results of the Emeriti Survey as one source of income to the system.  
   g. Mellor suggested that he will try to arrange a meeting with the incoming new Executive Vice Chancellor Professor Emily Carter and Chancellor [if available] in late fall to acquaint her with the results of the survey. The meeting should include Sy Levin and Dick Weiss. Mike Levine offered to facilitate that meeting.

6. **New Business**

   a. Discussion of  
      i) medical plan changes-  
      **Mitchell**

   A- Retiree health care has been looked at for several years. At a recent CUCEA CUCRA meeting UCOP administrators revealed that a plan was being developed to change the current “plans’ to decrease costs to University by ~ 40 Million dollars. A new committee may be discussing this but nothing is as yet available. The Health Services Committee of the Regents are meeting on campus next week but health care is NOT on the announced agenda. However, the board is suggesting that a member[s] sign up for the free discussion session with the regents to ask them if they are aware of new health care changes which might be made. The indications are that the high option plan may be phased out and a MediCare Advantage Plan brought in. There are some review documents
which the ERRC will send out to all Emeriti to make them aware that changes may be coming.
